Mr. Roger S. Boyd, Assistant Director  
for Boiling Water Reactors  
Division of Reactor Licensing  
U.S. Atomic Energy Commission  
Washington, D.C. 20545

Subject: Inspection and Structural Capability  
of the Dresden Units 2 and 3 Tori

Dear Mr. Boyd:

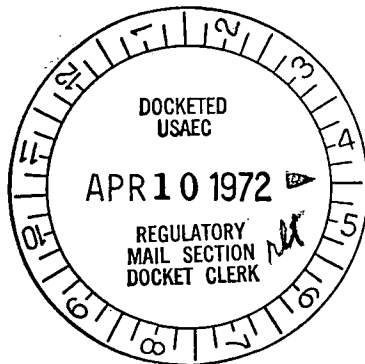

In a letter to you dated March 24, 1972 we indicated that an inspection of the piping supports and baffles in the Dresden Unit 3 torus was scheduled for January 1973. This information was erroneous.

The inspection of the Dresden Unit 3 torus will take place during the first refueling outage for Dresden Unit 3. At the present time, this outage is scheduled to occur in the fall of 1973.

Should you require any additional information, please let me know.

Very truly yours,

Wayne L. Stiede  
Nuclear Licensing Administrator
