

SECRETARY

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 13, 2017

MEMORANDUM TO: Victor M. McCree
Executive Director for Operations

FROM: Annette L. Vietti-Cook, Secretary **/RA/**

SUBJECT: STAFF REQUIREMENTS – COMSECY-17-0010 – REQUEST
FOR APPROVAL OF CHANGES TO THE FREQUENCY OF
STAFF REPORTS TO THE COMMISSION REGARDING THE
STATUS OF GENERIC ISSUES

The Commission has approved the staff's request to change the frequency of its status reports on Generic Issues from quarterly to semiannually, and to use the information in NRC's semiannual report to Congress and a link to the Generic Issues Dashboard.

The staff is reminded that the existence of updated information somewhere on the agency's website does not constitute fulfillment by the agency staff of its obligation to keep the Commission fully and currently informed about matters within its functions and neither, as a general matter, do reports to entities external to the agency. Significant emergent generic issues should be communicated to the Commission promptly.
