Dear Mr. Ziemann:

In response to your letter of August 13, 1976 to Mr. R.L. Bolger regarding the Mark I Containment Long Term Program, we request that the materials transmitted to Mr. V. Stello (NRC) by the letter of August 25, 1976 from Mr. L.J. Sobon of General Electric, be placed on the Dresden Units 2 and 3, and Quad Cities Units 1 and 2 dockets. The materials transmitted to Mr. Stello are the view graphs used at the Mark I Owners Group meeting with Mr. J. Guibert and other members of the NRC Staff held on August 18, 1976.

These view graphs respond to the twelve (12) items raised in your letter of August 13, 1976, as well as, the activities in the Long Term Program which address these items, and the method or technique which will be used in each of these tasks to obtain the information identified.

It is our belief that the information presented at the meeting of August 18, 1976, as documented by the view graphs transmitted to Mr. Stello by letter of August 25, 1976 fully responds to the questions presented in your letter of August 13, 1976. One (1) signed original and 39 copies of this letter are being forwarded for your use.

Very truly yours,
