Docket Nos. 50-237
 and 50-249

Commonwealth Edison Company
 72 West Adams Street
 Chicago, Illinois 60690

Attention: Mr. W. B. Behnke
 Assistant to the President

Gentlemen:

This is in response to your requests of November 21, 1968 and August 18, 1969 that certain information which you submitted to the Atomic Energy Commission be withheld from public disclosure pursuant to the provisions of Section 2.790 of 10 CFR Part 2. The withholding requests referred respectively to (1) Exhibits 1 and 2 of Amendments 8 and 9 which contained supplemental quality control information prepared by Sargent and Lundy, Inc., and United Engineers and Constructors, Inc., and (2) information contained in Amendments 18 and 19 which consisted of General Electric Company's cost estimates for modifications of the Rod Block Monitor System and related estimated schedule delays.

After reviewing these documents, we have determined that disclosure of the information contained in Exhibits 1 and 2 of Amendments 8 and 9 and in Amendments 18 and 19 is not required in the public interest, nor by the provisions of Part 9 of the Commission's regulations, and would adversely affect the interests of the respective companies. The basis of our decision is that these documents are not essential to the safety review of these reactors in view of the other technical data furnished in the amended application, including Amendments 17 and 18.

Accordingly, we are withholding from public inspection the information contained in these submittals, pursuant to the provisions of Section 2.790(b) of 10 CFR Part 2. Withholding of this information from public inspection shall not, however, affect the rights, if any, of persons properly and directly concerned to inspect these documents.

Sincerely yours,

ORIGINAL SIGNED BY
 Peter A. Morris

Peter A. Morris, Director

Division of Reactor Licensing
