Mr. Sylvain Faille
Director, Transport Licensing and
Strategic Support Division
Canadian Nuclear Safety Commission
P.O. Box 1046, Station B
280 Slater Street
Ottawa, Ontario K1P 5S9
Canada

SUBJECT: APPLICATION FOR APPROVAL UNDER THE JOINT GUIDE

Dear Mr. Faille:

Westinghouse Electric Company requested approval of an amendment request for the Model No. Traveller package, under the auspices of NUREG-1886, "Joint Canada-United States Guide for Approval of Type B(U) and Fissile Material Transportation Packages." I have enclosed a copy of the compact disc containing the application letter, dated March 20, 2017, and the applicant's consolidated safety analysis report in compliance with NUREG-1886.

We anticipate issuing Revision No. 10 of the certificate of compliance for the Model No. Traveller series of packages in the July 2017 timeframe and, if needed, a request for additional information in the May 2017 timeframe.

Please reference Docket No. 71-9297, and CAC No. L25190, in future correspondence related to this licensing action. If you have any questions regarding this matter, please contact Pierre Saverot at Pierre.Saverot@nrc.gov.

Sincerely,

/RA/

Huda Akhavannik, Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards

Docket No. 71-9297
TAC No. L25190

Upon removal of Enclosure, this document is uncontrolled
