March 29, 2017 NOC-AE-17003452 File No.: D57, G25 10 CFR 50.75

U. S. Nuclear Regulatory Commission Attention: Document Control Desk Washington, DC 20555-0001

South Texas Project
Units 1 and 2
Docket Nos. STN 50-498, STN 50-499
Financial Assurance for Decommissioning – 2017 Update

Pursuant to 10 CFR 50.75(f)(1), STP Nuclear Operating Company (STPNOC) submits the attached status reports regarding funds available, effective December 31, 2016, for decommissioning South Texas Project Units 1 and 2. The data are assembled by the individual co-owners of the South Texas Project:

- NRG South Texas LP;
- City Public Service Board of San Antonio; and
- City of Austin Austin Energy.

The attached reports provide the following information for each co-owner:

- Estimated amount of decommissioning funds required;
- Amount accumulated by December 31, 2016;
- A schedule of the annual amounts remaining to be collected;
- Assumptions for rates of escalation in decommissioning cost, and for rates used in funding projections;
- Contracts upon which the owners rely pursuant to 10 CFR 50.75(e)(1)(v);
- Modifications to method of providing financial fund assurance; and
- Material changes to trust agreements.

This letter contains no NRC commitments.

If there are any questions, please contact either Kathleen Van Daalen at (361) 972-8030 or me at (361) 972-8074.

SOUTH TEXAS PROJECT

FINANCIAL ASSURANCE FOR DECOMMISSIONING

2017 UPDATE

NRG SOUTH TEXAS LP

FINANCIAL ASSURANCE FOR DECOMMISSIONING NRG South Texas LP 13.2% Ownership of South Texas Project Unit 1

Pursuant to 10 CFR 50.75(f)(1), each power reactor licensee is required to report to the NRC on a calendar year basis, beginning on March 31, 1999, and every two years thereafter, on the status of its decommissioning funding for each reactor or share of reactor it owns. The requested information is provided below.

1.	Minimum	decommissioning	fund	estimate,	Total Required:	•	\$51,824,550
	pursuant to 10 CFR 50.75(b) and (c)1:						

2. Amount accumulated at the end of the calendar year preceding the date of the report for items included in 10 CFR 50.75(b) and (c):

\$59,967,894

3. Schedule of the annual amounts remaining to be Amount Remaining³: \$0 collected for items in 10 CFR 50.75(b) and (c):

Number of Years to Collect: 11.64

4. Assumptions used regarding escalation in **Escalation Rate:**decommissioning cost, rates of earnings on decommissioning funds, and rates of other **Earnings Rate:**factors used in funding projections:

2.471%
3.30% - 7.91%

5. Contracts upon which the licensee is relying **None** pursuant to 10 CFR 50.75(e)(1)(v):

6. Modifications to a licensee's current method **None** providing financial assurance occurring since the last submitted report:

7. Material changes to trust agreements: None

The NRC formulas in section 10 CFR 50.75(c) include only those decommissioning costs incurred by licensees to remove a facility or site safely from service, and reduce residual radioactivity to levels that permit: (1) release of the property for unrestricted use and termination of the license; or (2) release of the property under restricted conditions and termination of the license.

^{2.} By Order dated October 10, 2008 in PUCT Docket No. 35772, NRG South Texas was granted approval to establish a separate spent nuclear fuel management (SNF) subaccount. By Order dated July 13, 2009 in PUCT Docket No. 36796, NRG South Texas was granted approval to establish a separate subaccount for the pre shutdown disposal of large components. By Order dated October 7, 2013, NRG South Texas was granted approval to establish a separate subaccount for amounts recovered pursuant to a litigation settlement agreement with the United States government for certain onsite spent fuel storage and management expenses it has incurred and will incur as a result of the failure of the Department of Energy to provide for the offsite disposal of spent nuclear fuel. The amounts allocable to the subaccounts are not included in the reported amount. The reported amount includes funds accumulated based upon a site specific study that includes license termination and other costs.

^{3.} Target amounts to be collected were established by the PUCT-approved separate non-bypassable decommissioning charges established in PUCT Tariff Control No. 41970. Actual collections will vary but the charges are intended to produce the targeted annual collection amounts established in PUCT Docket No. 41580. All current collections are being deposited in the large component disposal subaccount.

FINANCIAL ASSURANCE FOR DECOMMISSIONING

NRG South Texas LP 30.8% Ownership of South Texas Project Unit 1

Pursuant to 10 CFR 50.75(f)(1), each power reactor licensee is required to report to the NRC on a calendar year basis, beginning on March 31, 1999, and every two years thereafter, on the status of its decommissioning funding for each reactor or share of reactor it owns. The requested information is provided below.

1.	Minimum	decommissioning	fund	estimate,	Total Required:	\$120,923,949
	pursuant to 10 CFR 50.75(b) and (c)1:					

2. Amount accumulated at the end of the calendar year preceding the date of the report for items included in 10 CFR 50.75(b) and (c): \$147,782,395

3.	Schedule of the annual amounts remaining to be	Amount Remaining ³ :	\$0
	collected for items in 10 CFR 50.75(b) and (c):		

Number of Years to Collect:	11.64

Assumptions used regarding escalation in Escalation Rate:
 decommissioning cost, rates of earnings on
 decommissioning funds, and rates of other Earnings Rate:

SOUTH TEXAS PROJECT

FINANCIAL ASSURANCE FOR DECOMMISSIONING

2017 UPDATE

CITY PUBLIC SERVICE BOARD OF SAN ANTONIO

FINANCIAL ASSURANCE FOR DECOMMISSIONING City Public Service Board of San Antonio 12% Ownership of South Texas Project Unit 1

Pursuant to 10 CFR 50.75(f)(1), each power reactor licensee is required to report to the NRC on a calendar year basis, beginning on March 31, 1999, and every two years thereafter, on the status of its decommissioning funding for each reactor or share of reactor it owns. The requested information is provided below.

1.	Minimum decommissioning fund estimate, pursuant to 10 CFR 50.75(b) and (c) ¹ :	Total Required:	\$47,113,227
2.	Amount accumulated at the end of the calendar year preceding the date of the report for items included in 10 CFR 50.75(b) and (c):	Amount Accumulated ² :	\$41,540,381
3.	Schedule of the annual amounts remaining to be collected for items in 10 CFR 50.75(b) and (c):	Amount Remaining ³ :	
	collected for items in 10 of it 50.75(b) and (c).	Number of Years to Collect:	11
4.	Assumptions used regarding escalation in	Escalation Rate:	2.471%
	decommissioning cost, rates of earnings on decommissioning funds, and rates of other factors used in funding projections:	Earnings Rate:	4.35%
5.	Contracts upon which the licensee is relying pursuant to 10 CFR 50.75(e)(1)(v):	None	
6.	Modifications to a licensee's current method providing financial assurance occurring since the last submitted report:	None	

^{7.} Material changes to trust agreements:

^{1.} The NRC formulas in 10 CFR 50.75(c) include only those decommissioning costs incurred by licensees to remove a facility or site safely from service, and reduce residual radioactivity to levels that permit: (1) release of the property for unrestricted use and termination of the license; or (2) release of the property under restricted conditions and termination of the license. The cost of dismantling or demolishing non-radiological systems and structures is not included in NRC decommissioning cost estimates. The costs of managing and storing spent fuel on site until transfer to the Department of Energy are not included in the cost formulas.

^{2.} By Order dated November 20, 2008, in PUCT Docket No. 35786, CPS Energy was granted approval to establish separate spent fuel management and pre-shutdown activities subaccounts. The amounts allocable to these subaccounts are not included in the reported amount. The reported amount includes funds accumulated based upon a site-specific study that includes license termination and other costs.

^{3.} CPS Energy estimates that the Trust is currently fully funded, based on the 2012 decommissioning cost study and updated escalation rates. Additional contributions ended December 31, 2008. If future estimates indicate that further funding may be required, CPS Energy would be able to apply to the PUCT to seek further funding for NRC license termination costs through cost-of-service recovery authorized by Texas law.

FINANCIAL ASSURANCE FOR DECOMMISSIONING City Public Service Board of San Antonio 28% Ownership of South Texas Project Unit 1

Pursuant to 10 CFR 50.75(f)(1), each power reactor licensee is required to report to the NRC on a calendar year basis, beginning on March 31, 1999, and every two years thereafter, on the status of its decommissioning funding for each reactor or share of reactor it owns. The requested information is provided below.

1.	Minimum decommissioning fund estimate, pursuant to 10 CFR 50.75(b) and (c) ¹ :	Total Required:	\$109,930,863
2.	Amount accumulated at the end of the calendar year preceding the date of the report for items included in 10 CFR 50.75(b) and (c):	Amount Accumulated ² :	\$113,428,444

1.	Minimum decommissioning fund estimate, pursuant to 10 CFR 50.75(b) and (c) ¹ :	Total Required:	\$62,817,199
2.	Amount accumulated at the end of the calendar year preceding the date of the report for items included in 10 CFR 50.75(b) and (c) ² :	Amount Accumulated:	\$71,333,448
3.		Amount Remaining:	\$27,347,390
	collected for items in 10 CFR 50.75(b) and (c):	Number of Years to Collect:	12
4.	Assumptions used regarding escalation in decommissioning cost, rates of earnings on decommissioning funds, and rates of other factors used in funding projections:	Escalation Rate:	2.727%
		Earnings Rate:	2.00%
5.	Contracts upon which the licensee is relying pursuant to 10 CFR 50.75(e)(1)(v):	None	
6.	Modifications to a licensee's current method providing financial assurance occurring since the last submitted report:	None	

7. Material changes to trust agreements:

On August 4, 2016, a new South Texas
Project Decommissioning Master Trust
Agreement between Austin Energy and
Wilmington Trust was signed consistent with
10 CFR Part 50. The amended trust terms
address the separate accounts for STP Units
1 & 2 that Austin Energy previously
established for the following: 1) License
Termination Fund 2) Spent Fuel Management
Fund 3) Site Restoration Fund and 4) PreShutdown Decommissioning Fund

^{1.} The NRC formulas in 10 CFR 50.75(c) include only those decommissioning costs incurred by licensees to remove a facility or site safely from service, and reduce residual radioactivity to levels that permit: (1) release of the property for unrestricted use and termination of the license; or (2) release of the property under restricted conditions and termination of the license. The cost of dismantling or demolishing non-radiological systems and structures is not included in NRC decommissioning cost estimates. The costs of managing and storing spent fuel on site until transfer to the Department of Energy are not included in the cost formulas.

^{2.} On August 4, 2016, a new South Texas Project Decommissioning Master Trust Agreement between Austin Energy and Wilmington Trust was signed consistent with 10 CFR Part 50. The amended trust terms address the separate accounts for STP Units 1 & 2 that Austin Energy previously established for the following: 1) License Termination Fund 2) Spent Fuel Management Fund 3) Site Restoration Fund and 4) Pre-Shutdown Decommissioning Fund.
