

<b>NRC FORM 591M PART 1</b> (07-2012) 10 CFR 2.201		<b>U.S. NUCLEAR REGULATORY COMMISSION</b>	
<b>SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION</b>			
1. LICENSEE/LOCATIONS INSPECTED: Dominion NDT Services, Inc. 7427 Whitepine Road Richmond VA, 23237  REPORT NUMBER(S)                      2017-001		2. NRC/REGIONAL OFFICE  U.S. Nuclear Regulatory Commission Region I, 2100 Renaissance Blvd, Suite 100 King of Prussia, Pennsylvania 19406-2713	
3. DOCKET NUMBER(S) 030-38699		4. LICENSE NUMBER(S) 45-35118-01	5. DATE(S) OF INSPECTION March 20, 2017 – April 12, 2017
LICENSEE: The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:			
<input type="checkbox"/> 1. Based on the inspection findings, no violations were identified.			
<input type="checkbox"/> 2. Previous violation(s) closed.			
<input type="checkbox"/> 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, to exercise discretion, were satisfied.			
Non-cited violation(s) were discussed involving the following requirement(s) and corrective action(s):			
<input checked="" type="checkbox"/> 4. During this inspection, certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited in accordance with the NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11. (Violations and Corrective Actions)			
Dominion NDT Services, Inc., NRC License No. 45-35118-01, Condition 17 A, application dated December 4, 2013, specifies that quarterly maintenance [for radiography cameras] will be performed in accordance with Dominion NDT Services Radiographic Operating and Emergency Manual (ROEM) Part B, Chapter 7.			
Step 2.2 of that procedure, specifies that quarterly inspections and maintenance shall be performed in accordance with procedures detailed in Dominion NDT license and the manufacturer's recommendations. QSA's Operating and Maintenance Manual, dated September 2015, requires, that following quarterly maintenance on a QSA Model 880 D radiography camera, a source "misconnect test" must be conducted on the exposure device including the radioactive source assembly and remote controls to test the integrity of the entire locking system.			
Contrary to the above, from July 1, 2016 to March 20, 2017, Dominion NDT Services, Inc., did not fully conduct quarterly inspections and maintenance [for radiography cameras] in accordance with procedures detailed in the Dominion NDT license and the manufacturer's recommendations. Specifically, on a quarterly basis, the licensee did not conduct source "misconnect tests" on QSA Model 880 D cameras including the radioactive source assembly and remote controls to test the integrity of the exposure device's entire locking system.			
This is a SL IV violation (Enforcement Policy Section 6.7).			
<b>Statement of Corrective Actions</b>			
I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.
