Dear Ms. Long:

This is in reference to the application dated February 15, 2017, requesting to renew NRC License No. 47-31223-01. In order to continue our review, we need the following additional information:

1. Regarding the organization, please provide the following:
 - a. In order to facilitate future communications, please provide a business email address for Kanawha (if they use one).
 - b. In the application, it is not clear whether or not the locations of use are controlled by an entity other than Kanawha. If so, please describe the relationship between Kanawha Valley Heart Specialists and the facility owner(s), concerning access to both locations of use for the purpose of decontamination or removal of licensed material from the locations of use in the event of disharmony between you and the owner(s) of the entities. Additionally, please confirm that Kanawha Valley Heart Specialists will be responsible for decommissioning the facilities should service be discontinued.
2. Please describe areas located above and below the hot lab in each facility. Additionally, for the 4610 Kanawha Ave. location, please identify what is in the area located in front of the room containing the hot lab and confirm whether or not the room marked "Storage" does or does not contain radioactive material.
