Article 20. Nuclear Regulatory Agreement

W.S.1977 § 35-11-2004

§ 35-11-2004. License conditions; termination of licenses

Currentness

(a) The department shall prescribe conditions in licenses issued, renewed or amended for an activity that results in production of byproduct material to minimize or, if possible, eliminate the need for long-term maintenance and monitoring before the termination of the license.

(b) Prior to terminating any license the administrator of the land quality division shall obtain a determination from the nuclear regulatory commission that the licensee has complied with the commission's decontamination, decommissioning, disposal and reclamation standards.

(c) Prior to terminating a byproduct material license the department shall ensure the ownership of a disposal site and the byproduct material resulting from licensed activity are transferred to:

(i) The state of Wyoming; or

(ii) The federal government if the state declines to acquire the site, the byproduct material, or both the site and the byproduct material.

(d) Upon the transfer of a disposal site or the byproduct material resulting from licensed activity to the federal government, funds collected for decommissioning and long-term surveillance shall also be transferred to the federal government.
