LISLE, IL 60532-4352

APR 21 2017

Michael F. Busch, M.D.
Radiation Safety Officer
Franciscan St. Elizabeth Health Lafayette
Nuclear Medicine Department
1701 S. Creasy Lane
Lafayette, IN 47905

Dear Dr. Busch:

We have completed our review of Franciscan St. Elizabeth Health Lafayette's request for the use of yttrium-90 SIR-Spheres, as permitted by 10 CFR 35.1000. At this time we will not be able to approve your request because the information in letter dated January 4, 2017, was insufficient to complete our review and the request has been voided.

The additional information that we will need was provided by email to your Medical Nuclear Physicist, Thomas M. Kumpuris, on April 13, 2017. We have received your response dated April 14, 2017, and will continue our review of that information under a new control number. If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer L. Bishop".

Jennifer L. Bishop
