GLOBAL NUCLEAR FUEL – AMERICAS, DOCKET NUMBER 70-1113**

Dear Mr. Hilton:

This letter refers to our meeting, conducted as a webinar, on April 12, 2017, during which we discussed the Nuclear Regulatory Commission's (NRC's) evaluation of your performance in the four major areas of safety operations, radiological controls, facility support, and other areas. The meeting afforded you the opportunity to provide feedback to the NRC regarding your perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your continued safe and secure operation of the site.

The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for Global Nuclear Fuel - Americas. The list of meeting attendees is enclosed. The meeting slide presentation is available under accession number ML17115A100 in the Agencywide Documents Access and Management System (ADAMS).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at 404-997-4555.

Sincerely,

/RA/
