### **To the Nuclear Regulatory Commission:**

So you propose to transport high level radioactive waste to low income communities and and bury it there “temporarily”?

THAT IS MONSTROUS.

Think of the CHILDREN. Ours, yours, theirs. And then, think of the grandchildren.  
Do poor neighborhoods deserve what would never pass in rich neighborhoods?  
Is this your legacy to the future?

In 2014, Dr. Ian Fairlie warned, ”There’s a very close association between increased childhood leukemias and proximity to NPP’s [nuclear power plants].”

Nuclear waste has never been safe. We all know that but some of us—you in the nuclear industry—are in denial. What are you blinded by?

Until or unless scientists find some new form of magic, nuclear energy will NEVER be safe.

I, my family, my community, and all sentient beings who think about it are absolutely heartsick that the NRC, which was supposed to oversee our safety, is actually leading the march toward death and destruction.

CLOSE PILGRIM. CLOSE ALL NUCLEAR POWER PLANTS.
