TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0611, "Power Reactor Inspection Reports," is an initial issuance. This IMC has been created to separate power reactor inspection reports from issue screening, and is consistent with the inspection report documentation guidance that was formerly in IMC 0612.

IMC 0612, "Issue Screening," is being reissued to separate power reactor inspection reports from issue screening. No other changes were made.

IP 71151, "Performance Indicator Verification," has been revised to correct typographical errors. No other changes were made

IP 73054, "Part 52 Preservice and Inservice Inspection - Review of Program," is being revised as a periodic update based on in-depth discussions between HQ and Regional staff members, as well as lessons learned from the first round of PSI program inspections.
