Subject: [External_Sender] FW: Response to ORAU IR 1-9 Decommissioning Plan

Ron

As discussed with you today Uranium One would like until May 15, 2017 to get a schedule put together for you regarding the Irigaray Mine Unit 1-9 decommissioning based on ORAU findings. Weather conditions have not allowed U1 to get field gamma measurements from the ORAU location to verify readings.

Regards,

Scott Schierman | HSE Manager

Ron

Uranium One is currently evaluating our best options for moving forward with decommissioning at Irigaray Mine Units 1-9. Your letter of February 13, 2017 requests a proposed schedule for completing surface decommissioning within 30 days of receipt. Uranium One is requesting an extension to May 1, 2017 to allow us to best determine our path forward on getting the surface decommissioning completed.

If you have any questions or need additional information please let me know.
