Dear Mr. Haire:

In the NRC final significance determination letter (Reference 1), the NRC staff notified Pacific Gas and Electric Company (PG&E) of a greater-than-green finding and notice of violation at the Diablo Canyon Power Plant (DCPP). In the Annual Assessment Letter (Reference 2), the NRC indicated that the notice of violation would require a supplemental inspection, and the NRC would plan this inspection activity when DCPP provides notification of readiness for the inspection.

This letter is to inform you that PG&E is ready for the supplemental inspection at DCPP. In order to minimize potential impact on DCPP Unit 1 twentieth refueling outage activities, PG&E requests that the inspection be conducted during the week of June 12-16, 2017.

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

If you have questions regarding this letter, please contact Mr. Hossein Hamzehee, Manager of Regulatory Services at 805-545-4720.
