Re: License No. 24-35028-01
NRC License Termination Request

Please find attached the closeout survey for the storage building that previously housed our Troxler nuclear density meter. We completed the survey with a Troxler model troxalert meter. We transferred ownership of our nuclear density meter to Horner & Shifrin in Poplar Bluff, Missouri. They recently received their license to own and store the meter.

Also enclosed is a certification of disposition of materials for the nuclear density meter.

Should you have any questions or need additional information please contact our office at 573-785-0880 or my cell phone at 573-429-5520.

Respectfully,
Robertson Contractors Inc.

David Stinson, PE
Project Manager
