Subject: NRC amendment
Date: Thursday, May 04, 2017 2:19:00 PM

License No.: 44-10187-01

Docket No.: 03003289

Control No.: 593031

Good afternoon Brian.

For the disposal of the 4 one millicurie cobalt 57 sources, I cannot accept the e-mail as proof that the sources were disposed of. If you could provide a copy of the shipping papers that accompanied the sources when they were transferred to Pharmalogic, I would appreciate it. I would expect that either UVM or Pharmalogic would have a copy.

At this point I would like to go ahead and issue the amendment that is in-house. I will remove Elizabeth Hipp, Ph.D., remove the use of I-125 seeds for non-palpable lesions, and I will add Dr. Nelson to the license as an AU. Once you obtain documentation that the Co-57 sources have been properly disposed of, we can address removing them from the license.

If you have any question, let me know.
