Jackie,

Thank you for your response. I was intending on having our medical physicist run him through both operation and emergency training on our HDR system once he is on site in August.

Jeff

Thank you Mr. Jennelle for following up. I had jury duty yesterday but I wasn't expecting it to last all day. I came into the office today after lunch so if not today, I will have your amendment to you tomorrow.

I will check with my colleague to get his opinion on whether "telephone" training and the watching of SirTex training videos is adequate or does the proposed RSO need to be on site to receive that training. In addition, don't forget that CPT Costeira needs training in the same manufacturer and model of HDR unit as identified in Item 7.G. of your license in accordance with 10 CFR 35.50(e).

I'll get back with you after talking with my colleague and we've agreed on a path forward.

Thanking you in advance for your understanding in this matter,

Ms. Cook,

Greetings,

Per our conversation on Thursday, 27 April, you mentioned you would be sending me an email confirmation this week in regards to our amendment request to make myself the temporary RSO. Since I didn't receive that email from you yet, I wanted to make sure that everything was still acceptable on your end. LTC Phillips will still be here at Madigan for a few more weeks if you need more time to finalize that amendment.

You also briefed me on the need for CPT Thomas Costeira to have training on Y-90 in order for him to meet the requirements for 10 CFR 35.1000 procedures. Would it be possible for me to provide CPT Costeira that training via the telephone and with SirTex training videos prior to his arrival here? Or does he have to either be on site here at Madigan or attend that training at another licensed facility?

Thank you for your time...

Good Afternoon Jeff:

Please note that after discussing with my colleague we both agree that you can provide CPT Costeira training via telephone and with SirTex training videos prior to his arrival there as long as that training is documented on NRC Form 313A (RSO) or other similar or equivalent form.

Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Ms. Jacqueline "Jackie" D. Cook
