SUBJECT: NRC FEEDBACK - OKLO INC. INITIAL LICENSING PROJECT PLAN

Dear Ms. Cochran:

By letter dated March 22, 2017, Oklo, Inc. (Oklo), submitted a letter to the U.S. Nuclear Regulatory Commission (NRC) that is available through the NRC Agencywide Documents Access and Management System (ADAMS) Accession No. ML17096A195 transmitting the proprietary Oklo Initial Licensing Project Plan.

On April 12, 2017, NRC had a drop-in discussion with Oklo to discuss the plan. The purpose of this letter is to provide a high-level summary of the plan and the NRC feedback provided during the discussion.

The Oklo Initial Licensing Project Plan covers pre-application activities for calendar year (CY) 2017 – CY 2018. Oklo's plan included requests for NRC review of planned submittals. For most submittals, informal feedback was requested to be provided to Oklo in a letter.

NRC feedback provided during the drop-in discussion included a suggestion to have the NRC staff provide feedback on submittals during meetings after the staff has the opportunity to review the submittal rather than providing feedback to Oklo in a letter. This would provide a more robust two-way discussion. Documentation of the discussions would be provided by NRC to Oklo in the form of a meeting summary.

The NRC is not expecting Oklo to revise the Initial Licensing Project Plan in the near-term, however, if the dates currently in the plan change significantly, NRC would appreciate advance notification.

C. Cochran
