John P. Burke, Chief

Quality Assurance Vendor Inspection Branch-2
Division of Construction and Operational Programs
Office of New Reactors
U.S. Nuclear Regulatory Commission

Re: Withholding information from public disclosure under 10 CFR 2.390

Dear Mr. Burke,

This letter is in regard to Swagelok Company's Nuclear Regulatory Commission Inspection Report No. 99901477/2017-201.

The inspection report contains information which Swagelok Company considers to be confidential commercial information. Specifically the names of Swagelok Company's suppliers and information related to internal evaluations of deviations which were not reported under 10 CFR Part 21 and are not public record.

Swagelok Company's suppliers perform specialized operations which contain trade secrets. Releasing the names of our suppliers to the public would provide information to competitors on how Swagelok products are processed. This information is considered confidential commercial information. Swagelok Company does not provide information regarding its suppliers to customers or other organizations outside Swagelok. Please redact all names and direct references to suppliers as identified in the attached affidavit and exhibits.

The inspection report lists two 10 CFR Part 21 evaluations which were concluded to not pose a significant safety hazard. These evaluations are not public record and contain information considered to be confidential commercial information. Please redact the titles listed in the two investigations as identified in the attached affidavit and exhibits.

Please contact me if you have any additional questions.

Sincerely,

David Peace
Vice President, Engineering
