Re: Docket 50-237
Dresden Nuclear Power Station Unit 2

Dear Mr. Giambusso:

According to your November 1, 1973 letter to James S. Abel of Commonwealth Edison Company, you have targeted the issuance of the staff's Safety Evaluation Report for Dresden Unit 2 for September 20, 1974, thirty days from today.

Your letter also stated that "we do not have intervention indicated; therefore, our schedule does not involve hearing dates."

The purpose of this letter is to inform you that there may be an intervention, and we would appreciate being kept informed of the staff's tentative or firm schedule with respect to any proposed full-term operating license for Dresden Unit 2. We would particularly like to be sent a copy of the Safety Evaluation Report as soon as it is ready.

If an ACRS meeting is to be scheduled, we would also like sufficient advance notice to be able to attend, and receive a copy of the SER well prior to such a meeting.

Thank you very much.

Sincerely yours,

David Dinsmore Comey
