October 18, 1973

Mr. Daniel Muller  
 Assistant Director for  
 Environmental Projects  
 Directorate of Licensing  
 Office of Regulation  
 U.S. Atomic Energy Commission  
 Washington, D.C. 20545

Subject: Submission Date for Dresden Station  
 Proposed Environmental Technical  
 Specifications - AEC Dkts 50-237 and 50-249

Dear Mr. Muller:

In a letter to you dated July 9, 1973, it was indicated that the proposed Environmental Technical Specifications would be available for submittal by September 30, 1973. Preparation of these Technical Specifications has been somewhat delayed by the coincidental efforts related to review and response to your Draft Environmental Statement - Dresden Nuclear Power Station Units 2 and 3. A draft of the Technical Specifications has been issued for internal review and it is expected our final proposed Technical Specifications will be submitted by the week of October 29, 1973.

Very truly yours,

*fn* J. S. Abel  
 Nuclear Licensing Administrator -  
 Boiling Water Reactors
