Gentlemen:

This office has received a copy of your May 24, 1978 application for amendment to Facility License Nos. DPR-19 and DPR-25 which you filed with the Office of Nuclear Reactor Regulation. The application relates to your proposed changes to Dresden Units 2 and 3 Technical Specifications concerning control rod drive. The application was accompanied by fees totalling \$1,600 for one each of amendment fee Classes II and I.

We have determined from our preliminary review that the requested action falls in amendment fee Classes III and I (totalling \$4,400) because it will involve a single safety issue (control rod drive uncoupling); therefore, you should forward the additional \$2,800 to this office promptly. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, please call 301/492-7225.

Sincerely,

William C. Miller, Chief
License Fee Management Branch
Office of Administration
