Mr. Royston Ngwayah
Licensing Engineer
Holtec International
One Holtec Blvd.
Camden, NJ 08104

SUBJECT: ACCEPTANCE LETTER FOR REVIEW OF THE MODEL NO. HI-STAR ATB 1T
PACKAGE

Dear Mr. Ngwayah:

By letter dated February 6, 2017, Holtec International (Holtec) submitted an application for Certificate of Compliance (CoC) No. 9375 for the Model No. HI-STAR ATB 1T package. By letter dated March 21, 2017, staff advised you that supplemental information was needed to accept this application for review.

This letter acknowledges receipt of the required supplemental information dated April 14, 2017, and informs you that the application now appears to contain the necessary information to begin our detailed technical review. We have established a schedule for this review which allows for the staff to issue a request for additional information (RAI) in early August 2017. If your RAI responses are satisfactory, and based on the staff's evaluation, the CoC may be issued in November 2017. We estimate that we will need approximately 2,200 hours to complete the technical review prior to the CoC issuance.

Please reference Docket No. 71-9375 and CAC No. L25185 in future correspondence related to this request. If you have any questions regarding this matter, I may be contacted at (301) 415-7505.

Sincerely,

/RA/

Pierre Saverot, Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards
