

VOID SHEET

TO: License Fee Management Branch

FROM: RIII - Material Licensing Branch

SUBJECT: VOIDED APPLICATION

Control Number: 592973

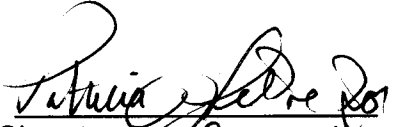

Applicant: Essential Isotopes

License Number: 24-32762-01MD

Docket Number: 030-38129

Date Voided: May 10, 2017

Reason for Void: The licensee in letter dated February 3, 2017, (ML17040A300), requested to perform quality control of the Samarium-153 I isotope. However, based on a telephone conversation on May 9, 2017, with the licensee (Marc D. Weichelt) it was determined that the licensee's request primarily involved the transfer/distribution of the Samarium-153 isotope (which was not requested in the February 3, 2017 letter). As discussed with Mr. Weichelt, additional information will be required to adequately review a request to transfer/distribute the Samarium-153 isotope. Therefore, in accordance with a discussion with Mr. Weichelt (who indicated that additional time will be needed to prepare a request for the transfer/distribution of the Samarium-153) and a discussion with the MLB Branch Chief, the licensing action will be voided to allow the licensee the additional time to submit an amendment request as stated.
