REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

MAY 11 2017

Ronald James
Radiation Safety Officer
DTE Energy
EF2 110 AIB
6400 North Dixie Highway
Newport, MI 48166

Dear Mr. James:

Enclosed are the amendments, listed below, to your NRC Material Licenses in accordance with your letters dated January 25, 2017.

- Amendment No. 15 to NRC License No. 21-02335-09
- Amendment No. 3 to NRC License No. 21-32707-01
- Amendment No. 28 to NRC License No. 21-02335-05
- Amendment No. 21 to NRC License No. 21-02335-06
- Amendment No. 15 to NRC License No. 21-02335-08
- Amendment No. 15 to NRC License No. 21-02335-12

Please note that we have changed the system used to prepare licenses, which has resulted in several changes to your licenses. These changes include the removal of the license condition referring to transportation of materials in accordance with current NRC policy to include the reference to Title 10 of the Code of Federal Regulations, Part 71, "Packaging and Transportation of Radioactive Material;" in the preamble, on page 1 of the license. On License No. 21-02335-08, we have also amended Condition No. 17 in accordance with current NRC policy. Finally, we have added NRC's Agencywide Documents Access and Management System (ADAMS) document accession numbers to the documents referenced in the amended licenses.

Please review the enclosed documents carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

R. James

-2-

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with Title 10 of the Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Jennifer L. Bishop
Materials Licensing Branch
Region III
