SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Foxworth:

This letter is in response to your letter dated May 1, 2017 (Agencywide Documents and Access Management System [ADAMS] Accession No. ML17130A758), in which you requested that the mailing address for your corporate headquarters be changed to 2800 Airport Road, Denton, Texas 76207. We do not have sufficient information to complete the review of your application.

Your application does not sufficiently address the requirements in Title 10 of the *Code of Federal Regulations*, Part 30, Section 30.34 (10 CFR 30.34), "Terms and conditions of licenses."

Section 30.34(b)(1) states: "No license issued or granted pursuant to the regulations in this part and parts 31 through 36, and 39 nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing."

Guidance describing how this requirement may be satisfied is provided in NUREG-1556, "Consolidated Guidance About Materials Licenses," Volume 15, Rev. 1 "Program-Specific Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licenses," available at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v15/>. Please review Section 5, Appendix C, and Appendix E in this document. If, after reviewing this material, you believe that no change of control has taken place, please provide a statement to that effect, with sufficient information to allow the U.S. Nuclear Regulatory Commission (NRC) to make a determination.

We will continue our review upon receipt of this information. If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

In accordance with 10 CFR 2.390 of NRC's "Agency Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC's Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.
