WESTINGHOUSE ELECTRIC COMPANY, DOCKET NUMBER 70-1151**

Dear Mr. Annacone:

This letter refers to our meeting at the State Museum of South Carolina in Columbia, South Carolina on May 9, 2017, during which we discussed the Nuclear Regulatory Commission's (NRC's) evaluation of your performance in the four major areas of safety operations, radiological controls, facility support, and licensing activities. The meeting was beneficial and provided the NRC the opportunity to discuss your facility's performance during the last assessment period. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your perception of the NRC performance review.

The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for Westinghouse Electric Company. The list of meeting attendees is enclosed. The meeting slide presentations are available under accession numbers ML17132A068 (for NRC's slides) and ML17132A070 (for Westinghouse's slides) in ADAMS.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
