and 50-388

Dear Mr. Grier:

In response to IE Bulletins 78-12, 78-12A and 78-12B, CB&I has prepared and submitted to NRC a generic report addressing these bulletins. The report contains certifications by CB&I for applicability to the Susquehanna Units 1 and 2 vessels. GE has reviewed this report and has found no discrepancies.

PP&L, in response to Item A of Bulletin 78-12, has reviewed its inventory and found no archive material.

Based on the above, PP&L believes the generic report adequately represents data for the Susquehanna vessels.

Very truly yours,

N. W. Curtis
