DOCKET NUMBER
PROD. & UTIL. FAC. 50-387 388

To: the Director,

I am very interested in getting the opinions of myself, husband & many friends & relatives on the record & having them incorporated in your resolution.

We are very strongly opposed to the operation of the P.P.& L. nuclear power plant at Berwick & all nuclear powed plants. We want the plant in Berwick shutdown & coal converted (if coal is made environmentally safe.). The nuclear madness has to stop. The industry has profited from public apathy. I hope they will no longer. I hope people are getting smart on the issue.

(Send a copy of the draft resolution)
