DOCKET NUMBER  
PROD. & UTIL. FAC. 50-387,388

the Director,

I am very interested in getting the opinions of myself, husband & many friends & relatives on the record & having them incorporated in your resolution.

We are very strongly oppose to the operation of the P.P. & L nuclear power plant at Berwick & all nuclear power plants. We want the plant in Berwick shutdown or coal converted (if coal is made environmentally safe). The nuclear madness has to stop. The industry has profited from public apathy. I hope they will no longer. I hope people are getting smart on the issue.

Send a copy of the draft to several people  
Sent 8/10 (M)

Most sincerely,  
Mr. & Mrs. Bob Warner
