Director, Div. of Health Safety & Environmental Analysis,
Office of Nuclear Reactor Regulation,
Washington, D. C. 20555

Robert R. Solenberger
50 Franklin Street
Bloomsburg, Pa. 17815

8/10/79

Dear Friend:

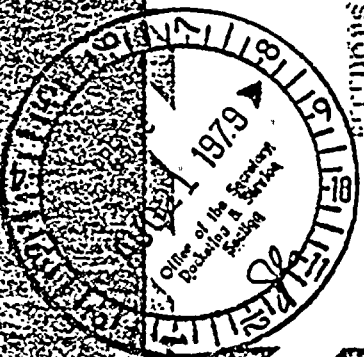

79100201374

6564 cents/13

Please send me at the above address a copy of the Draft Environmental Statement on the nuclear power plant now being erected near BERWICK, PA. (also called Bell Bend, Beach Haven, etc.) by the P. P. & L. Co., etc.

It is certainly to be hoped that a very thorough evaluation of all factors will be made, including detailed comparison with Three Mile Island, before any license is granted to have nuclear reactors at the Berwick plant. As Mr. Barry Commoner has pointed out in my hearing, it is remarkable that this plant, located on the edge of the anthracite coal area, could not have been designed to use that plentiful fuel.

Sincerely,
Robert R. Solenberger
