The Honorable Richard S Schweiker
253 Russell Office Building
Washington, D.C. 20510

Dear Mr Schweiker,

Enclosed is a copy of a letter we are sending to the NRC requesting a 120 day extension on the public comment period for the Draft Environmental Statement related to the operation of PP&L's nuclear powered plants in Berwick, Pa. As the letter indicates, we feel that it is time to more closely study the various phases of the licensing proceedings and that the findings of the President's Commission on the Accident at Three Mile Island should be included in any environmental impact statement relating to the operation of a nuclear powered electric generating station.

We are concerned that our request may not receive the prompt attention we feel it deserves and would greatly appreciate any help you can give us. I am certain that a call from your office to the NRC would help bring their attention to our request.

Thanks, in advance, for your help.

Sincerely,

David Mann
for The Susquehanna Alliance
