Samuel Chilk, Secretary  
US Nuclear Regulatory Commission  
Washington D.C. 20555

Dear Mr. Chilk:

As citizens who will be living within the 50 mile radius of the Berwick Nuclear Plant, we are requesting that we be allocated time to express our opinions at the licensing hearings this spring.

Please reserve time during a weekend for both of us to make separate limited appearance statements at the licensing hearings for Pennsylvania Power and Light Company's Susquehanna Steam Electric Station, Docket Nos. 50-387 and 50-388.

We will be expecting to be notified of the time and place of the hearings in the near future. Thank you for your attention to this request.
