Dear Commissioners,

Through news media & info groups I've learned that Pennsylvania Power & Light Co. is attempting, through misuse of the interrogatory process, to limit the participation of intervenors at the upcoming licensing hearings for the Berwick Nuclear Power Plant. I feel it's necessary w/ an issue as important as this that all interested persons should be heard & I do protest these efforts by P.P. & L. to prevent this from happening.

I know that you are not yet directly involved in the licensing hearings at this point but feel that you should be aware of this situation.

Sincerely,
Andy Lem
