Commissioners Hendrie, Bradford and Gulinski  
Nuclear Regulatory Commission  
Washington, D.C. 20055

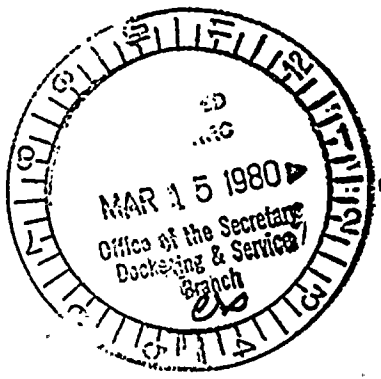

Dear Commissioners:

Through news media and information groups it has come to my attention that the Pennsylvania Power and Light Co. is attempting, through the misuse of the interrogatory process, to limit the participation of intervenors at the upcoming licensing hearings for the Berwick Nuclear Power Plant. With an issue as important as this, I feel it is necessary that all interested persons be heard. Therefore, I strongly protest such efforts by P.P. & L. which prevent important public comment and input.

I realize that the commissioners are not at present directly involved in the licensing hearings, however, the inequity and gravity generated by this situation is a serious public concern of which the commissioners should be aware.

Respectfully,

*David Rheinheimer*
