HENDRIE

Commissioners Atern, Bradford and Gulinski
c/o Nuclear Regulatory Commission
Wash., D.C. 20055

Through news media and information groups it has come to my attention that the Pennsylvania Power and Light Co. is attempting, through the misuse of the interrogatory process, to limit the participation of intervenors at the upcoming licensing hearings for the Berwick Nuclear Plant. I feel it is necessary with an issue as important as this that all interested persons should be heard and I do protest these efforts by P.P. and L. to prevent this from happening.

I realize that the commissioners are not directly involved in the licensing hearings at this point but feel that you should be aware of this situation.
