Docket Nos. 50-358 50-397
50-322 50-341
50-373 50-387

APPLICANTS: Cincinnati Gas & Electric Company
Long Island Lighting Company
Commonwealth Edison Company
Detroit Edison Company
Pennsylvania Power & Light Company
Washington Public Power Supply System

FACILITIES: Zimmer 1, Shoreham 1, LaSalle 1, Fermi 2, Susquehanna 1, WNP-2

SUBJECT: SUMMARY OF MEETING HELD ON MAY 14, 1980

A meeting was held in Bethesda, Maryland with the above named members of the Boiling Water Reactor - Licensing Resolution Group (BWR-LRG). The purpose of the meeting was to brief the staff on the organization and objectives of the BWR-LRG. The list of attendees for this meeting is provided in Enclosure 1.

The spokesman for the BWR-LRG was Mr. DeGeorge of Commonwealth Edison Company. He began the meeting by passing out copies of a letter to Mr. Denton (Enclosure 2) dated May 7, 1980 and the agenda and viewgraphs (Enclosure 3). A summary was presented on the results of the organizational meeting for the BWR-LRG that was held on May 1, 1980. The utilities that formed this group all have nuclear plants, with BWR's that are nearing completion of their review for a full power license. The goal of the group is to identify open issues from their licensing reviews that are generic to the group, form a consensus position on the issues, resolve the issue with the NRC, and apply that resolution to all 6 plants. This will expedite the licensing reviews for these plants and minimize the use of staff resources. The BWR-LRG has established a priority list for the six plants as shown in Enclosure 3. They have designated LaSalle as the lead plant. They requested the staff to resolve the remaining open issues and prepare the SER for LaSalle and then use these resolutions and SER writeups for the subsequent plants. Each utility will document the resolutions to these issues in their respective FSARs. The BWR-LRG plans to use the same approach for resolution of requirements contained in the TMI Action Plan (NUREG-0660).
