PETITION FOR EXTENSION OF TIME

December 13, 1980

Intervenor SEA comes now and respectfully requests that the Atomic Safety & Licensing Board amend its order of November 12, 1980 to provide all the intervenors in the above-captioned proceeding with additional time to respond to the interrogatories on Contention 6.

SEA respectfully requests that the Board grant an additional forty-five (45) days to respond to these questions, or 60 days total. The 15-day period specified by the Board will, in all probability, be woefully inadequate to analyze a plan that has been months, or years, in preparation, let alone to respond to questions or file new contentions based on the plan.

For SEA,

Gerald R. Schultz, Esq.
