^{1/} On August 22, 1980 Applicants filed their "Motion for Partial Summary Disposition of Contention 17 (Ozone)" in which they sought dismissal of the portion of Contention 17 that alleges adverse environmental effects from the ozone generated by the Susquehanna 500 kV lines. That motion is still pending before the Board. The August 22, 1980 motion and the instant one, taken together, seek summary disposition in Applicants' favor of the entirety of Contention 17.
