SUSQUEHANNA STEAM ELECTRIC STATION  
10CFR 73.21 - SAFEGUARDS INFORMATION RULE  
ER 100450 FILE 841-2  
PLA-1002

Reference: 46FR51718

Dear Mr. Schwencer:

On October 22, 1981, the NRC announced in the Federal Register a Final Rule concerning the Protection of Unclassified Safeguards Information. All sections of the Final Rule are effective on January 20, 1982.

In response to the requirements of 10CFR73.21, PP&L is in the process of establishing a company program to implement the Protection of Unclassified Safeguards Information Rule. PP&L is presently developing procedures to control the identification, marking and control of the material identified as safe-guards information. Additionally, security containers will be procured as soon as possible. We estimate that compliance will be achieved by the end of the second quarter of 1982.

Since the company has not had an Information Security Program of the magnitude required by the rule change and there was insufficient implementation period provided, this is the earliest implementation schedule achievable.

If you have any questions regarding this matter, please contact Mr. Thomas E. Gangloff (215) 770-5486.

Very truly yours,

N. W. Curtis  
Vice President-Engineering & Construction-Nuclear
