Dear Director:

I recently had the opportunity to review the Final Environmental Statement related to operation of the Susquehanna Steam Electric Station, NUREG-0564, published June 1981. The Draft EIS was published in three parts with a main body and ~~two~~ two supplements. Comments on the main Draft appear in Appendix B, along with comments on the first Draft Supplement. My comments on the main Draft appear in Appendix B. I did not comment on the first Draft Supplement.

Comments on Supplement No. 2 to the Draft EIS appear in section 6.1.6. I did comment on Supplement No. 2, but my comments were not included. My comments were mailed by certified mail on 2 June and received on June 5, 1981 by Donald Clark of the NRC, as is indicated by the enclosed copies of receipt and return receipt. Your attention to this oversight would be appreciated.

Sincerely,

*William A. Lochstet*
