PLA-1077

Docket Nos. 50-387
50-388

Dear Mr. Schwencer:

In response to SER ITEM #95, Pennsylvania Power & Light Company adopts the BWR Owners Group position (date February 5, 1982) on delaying ADS modifications until the completion of a study by General Electric Company. The study is scheduled for completion by 9/30/82.

As stated in our letter (PLA-851), the required system modifications will be installed prior to the startup following the first refueling outage for Unit 1 and prior to fuel load for Unit 2 contingent on the results of the GE study and contingent upon delivery of qualified equipment.

If you have any questions, please contact us.

Very truly yours,

N. W. Curtis
Vice President, Engineering and Construction-Nuclear
