Docket Nos. 50-387
50-388

Dear Mr. Schwencer:

The attached letter was sent to the NRC by General Electric to close-out item II.K.3.30 which required revisions to small LOCA models. Since no revisions were necessary to the GE model, no small LOCA reanalysis is necessary as required by item II.K.3.31. The letter sent by GE is applicable to Susquehanna. Therefore no reanalysis of small LOCA is necessary to meet item II.K.3.31. This completes our action for both these items.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
