ERS 100450/100508 FILE 840-4
PLA-1199

Reference: PLA-606

Dear Mr. Starostecki:

PLA-606 contained PP&L's response to an infraction (388/80-11-01) concerning the interpretation of quality control inspection procedure PSP-G-6.3. Part of the corrective action identified in PLA-606 was for PP&L to initiate a review of records that were complete and in the record vault. We had expected to have completed this review; however, based on our current workload/schedule, we anticipate that this action will be completed 90 days after fuel load.

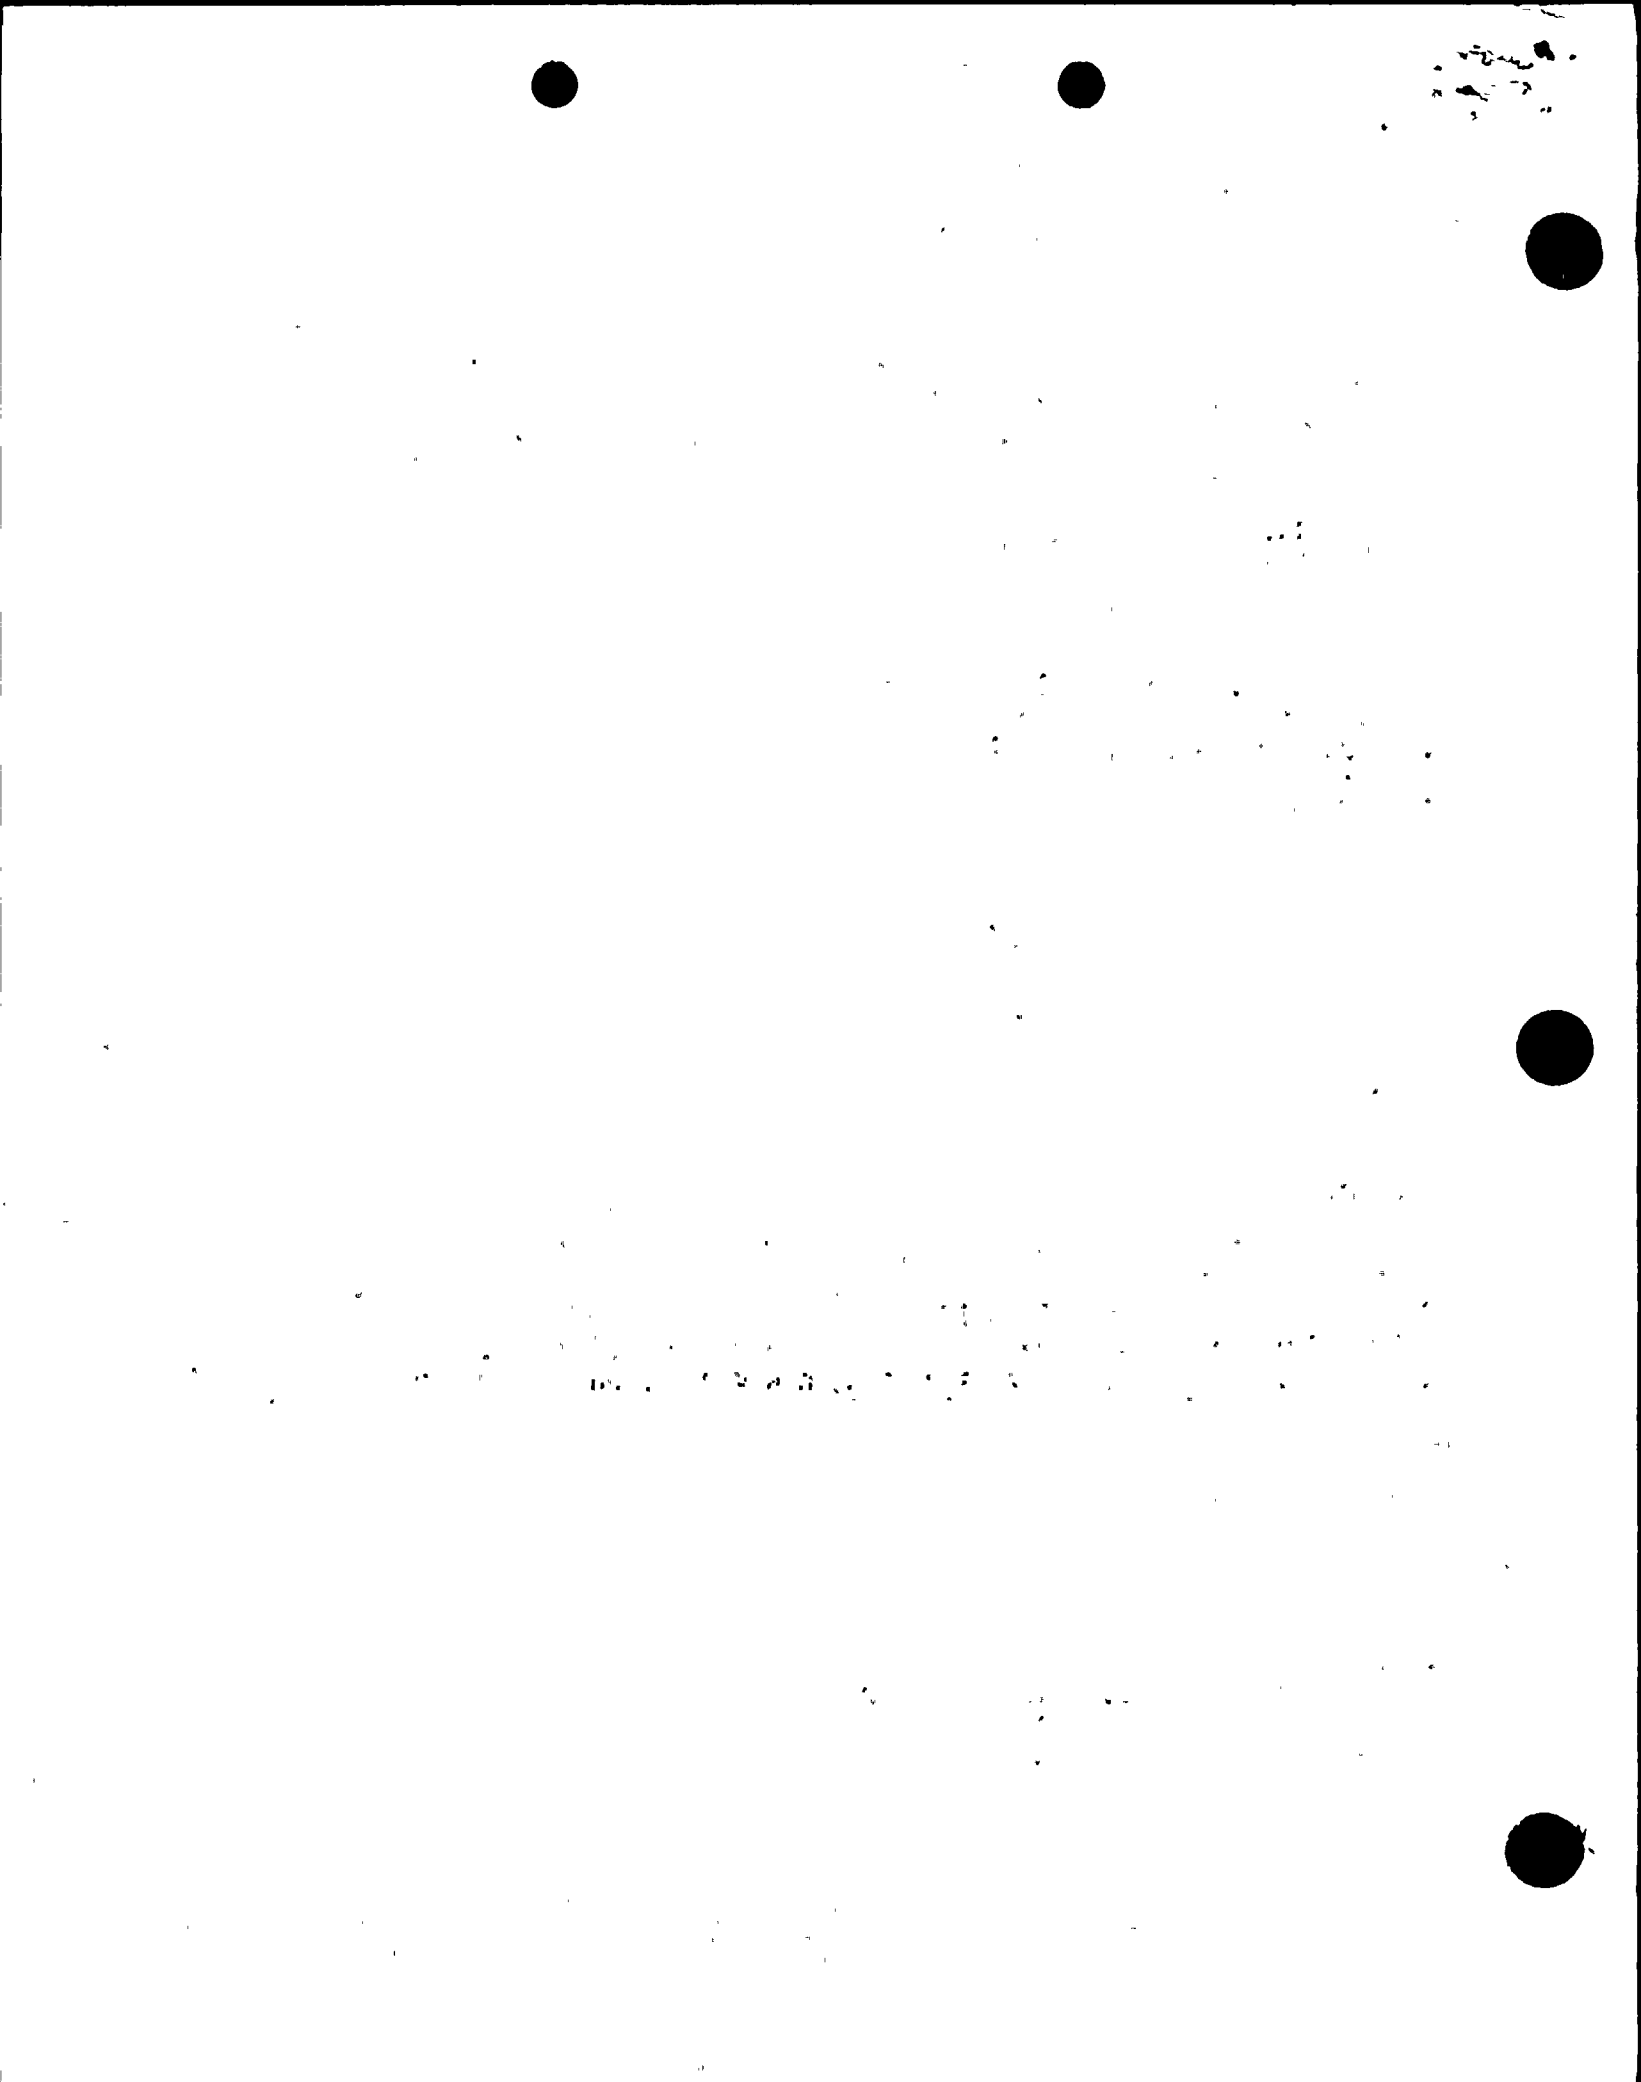

Very truly yours,

N. W. Curtis
VP-Engineering & Construction-Nuclear
