Reference (1): PLA-1232 dated August 13, 1982

Dear Mr. Schwencer:

Attachment 3 to reference (1) transmitted to you CDI's Report No. 82-4 entitled "Mark II Primary Containment Vacuum Relief Valve Test Program - Phase IV," which documented the results of the VB functional verification tests. Since then, we have had several telecons with your staff to discuss your comments on the subject report. Based on these conversations, we committed to revising Subsection 4.4 and Table 4.2 of the report.

The attached provides the proposed revisions to Subsection 4.4 and Table 4.2. A formal revision to the report will be transmitted to you in the near future.

Very truly yours,

N. W. Curtis  
Vice President - Engineering & Construction - Nuclear
