PROPOSED AMENDMENT 6 TO LICENSE NPF-14
ER 100450 FILE 841
PLA-1304

Docket No. 50-387

Dear Mr. Schwencer:

The purpose of this letter is to request a change to Section 3.11.5 item 2 (e) of Supplement No. 3 of the Susquehanna SES Safety Evaluation Report as referenced in License Condition 2 C (18) (a). This section should be changed to reflect the fact that PP&L has provided a PRA to cover the qualification of equipment subjected to an SDV break environment. This section should also state that PP&L has provided justification for interim operation for the equipment not qualified for an SDV break environment until the startup following the first refueling outage and while the NRC staff is reviewing the PRA submittal. Justification for the change was provided in letters PLA-1249 dated August 25, 1982 and PLA-1242 dated September 14, 1982.

Pennsylvania Power & Light Company has determined that this is a class III amendment per 10 CFR 170.22 and has enclosed a check for the amount of \$4000.00.

Very truly yours,

B. D. Kenyon
Vice President-Nuclear Operations
