PLA-1448

Docket Nos. 50-387
and 50-388

Dear Mr. Schwencer:

On April 19, 1982, PP&L submitted a response (PLA-1067) to your letter of April 5, 1982 concerning "Fast Scram" hydrodynamic loads on control rod drive systems. Our response provided a date, December 31, 1982, by which we expected to respond to five questions concerning the evaluation of hydrodynamic loads for Susquehanna. PP&L has been participating in a BWR Owners Group committee to address this issue. Unfortunately the BWR Owners Group has not completed its task. The Owners Group has indicated it will be finished by the second quarter of 1983. Since PP&L will be unable to respond until receiving this input, our response will be delayed until the end of the second quarter of 1983.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
