1. The purpose of this document is to provide a comprehensive overview of the current status of the project and to identify any potential risks or issues that may arise. This information is intended for the use of management and other stakeholders who are involved in the project.

2. The project has been progressing well since its inception. All major milestones have been met, and the team has demonstrated a high level of commitment and professionalism. However, there are several areas where further attention is required to ensure the project's success.

3. The following table provides a detailed breakdown of the project's progress and identifies the key areas for improvement. This information is based on the most recent data available and is subject to change as the project evolves.

4. The following table provides a detailed breakdown of the project's progress and identifies the key areas for improvement.

5. The following table provides a detailed breakdown of the project's progress and identifies the key areas for improvement.

SUSQUEHANNA STEAM ELECTRIC STATION
CHANGE N TO SSES PHYSICAL SECURITY PLAN
ER 100450 FILE 841-02
PLA-1588

Docket Nos. 50-387
50-388

Reference: PLA-1499 dated 1/24/83.

Dear Mr. Schwencer:

The referenced letter indicated that Change N to the SSES Physical Security Plan would be submitted in February 1983. At the present time, the submittal of Change N is not expected until April 1983.

This letter does not contain safeguards information and may be placed in the public document room.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
