Docket No. 50-387

Reference: Letter, N. W. Curtis to A. Schwencer, PLA-1430, Dec. 10, 1982

Dear Mr. Schwencer:

The purpose of this letter is to request that your review of Item 7 of the referenced proposed amendment to License No. NPF-14 be held in abeyance until further notice from PP&L.

PP&L has recently had some limited success in obtaining accurate design resistance tolerance information for some of the fuses in use at Susquehanna SES. We are therefore considering, pending further investigation, the possibility of recasting the proposal to allow fuse replacement to be an option to the current testing requirement if accurate design information is unavailable.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
